

9 December 1981

MEMORANDUM FOR: Stanley Sporkin, General Counsel
FROM: Director of Central Intelligence
SUBJECT: Proposed Response to Senator Inouye regarding
changes in CIA Retirement and Disability System

I agree that we can't take the position that spouses of the Agency officers have fewer equities than those of Foreign Service Officers. In many areas ours operate under much more difficult and dangerous situations and face much more demanding schedules. We should support not seeking retirement privileges comparable with those available to the Foreign Service.
